AUSTRALASIAN JOURNAL OF PHILOSOPHY

Seventy Year Index

1923-1992

Volumes 1 - 70

The *Australasian Journal of Psychology and Philosophy* was born in 1923. It was published under that title until 1947 when it became *The Australasian Journal of Philosophy*. In 1981 it became the *Australasian Journal of Philosophy*. This index is a complete record of the various kinds of material which have been published in the seventy volumes of the Journal from its birth in 1923 until the end of 1992. We have listed articles, one monograph (indexed under articles), discussion notes, review articles, researches, critical notices and book reviews. Where there are multiple entries for a particular author we have listed the entries in alphabetical order by title.

As the compilers we have made use of the three previously published indexes for 1923-46, 1923-1966 and 1967-1979 respectively, but have also gone back to the original publications. In was our hope thus to minimise errors. We have taken the liberty of standardising the signatures of contributors wherever possible.
